

Graphics Technician

Each Sunday you see graphics displayed on the sanctuary monitors. Our graphics technicians build the Microsoft Powerpoint presentations for our services.

We are always looking for alternate graphics technicians who might either help develop our slideshows, or operate pre-made slideshows during a service. It's not difficult and does not require a lot of computer expertise. Of course, training can be made available.

If you have interest, email office@lakegibosnumc.com or call 863-858-5431.
